Cover letter - Oregon OWRD Senior Systems & Network Engineer (job rotation), REQ-199237

Posting: [Senior Systems & Network Engineer - Limited Duration / Job Rotation](https://oregon.wd5.myworkdayjobs.com/en-US/SOR_External_Career_Site/job/Salem--OWRD--North-Mall-Office-Building/Senior-Systems---Network-Engineer--Information-Systems-Specialist-7--Limited-Duration-and-or-Job-Rotation_REQ-199237?q=it) - Water Resources Department

JD: [`653-myworkdayjobs-senior-systems-network-engineer-info-199237-2026-05-07.md`](653-myworkdayjobs-senior-systems-network-engineer-info-199237-2026-05-07.md)

Dear OWRD hiring team,

Eligibility note (please edit to your situation): This posting states applicants must be **current State of Oregon employees in permanent positions** with **supervisor approval** attached to the application for the **job rotation** path. *[Replace this sentence with: e.g., "I am a permanent classified/state employee and have attached supervisor approval." or "I am applying only if an external pathway exists-please advise."]*

I am interested in the **Senior Systems & Network Engineer** rotation supporting OWRD's **infrastructure unit**: secure networks, systems administration, **cybersecurity and compliance**, troubleshooting, **backup/DR**, and **COOP**-adjacent resilience-work that keeps a small agency IT team effective as complexity grows.

My background emphasizes **enterprise delivery and operational rigor** (cross-functional programs, documentation, incident discipline, and server-side migrations). I would welcome a conversation about how OWRD splits responsibilities with **Enterprise Information Services**, what **hybrid** cadence works for this team, and where you most need **senior consultation** vs. hands-on engineering in the near term.

I hold a **BS in Computer Information Systems**, am a **U.S. veteran**, and care about **sustainable water stewardship** and OWRD's service values.

Thank you for your consideration.

Best regards, *[Your name]*
